

Communication Board

Tree Planting Workshop and Community Events

May 2023 V1

Communication boards use symbols to share ideas, wants, needs, and thoughts, assisting individuals with communication challenges.

Ways to use communication boards:

1. Point to symbols to convey messages.
2. Speak while pointing to aid board users.
3. Read words aloud while pointing, allowing partners to respond with "yes" or "no."
4. Encourage others to support communication difficulties by using the board.
